

“Given the Surgeon General’s report and **the New Hampshire Senate’s irrational vote in April that scuttled a [smoke-free bill]**, we suggest New Hampshire be more honest with voters and post highway signs reading: “Welcome to New Hampshire, Live Free AND Die.”

“12 senators rose up and killed the [smoke-free bill], allowing their limited government ideology to **trump public health.** The senators’ comments at the time also seemed **small-minded** and **petulant.**”

THE PORTSMOUTH HERALD. 7/3/06

Robert Flanders stands in the way of a healthier New Hampshire.

Secondhand smoke is bad for our health. It kills 170 Granite Staters every year. It contains 4,000 chemicals including arsenic and cyanide. **The smoke-free bill (H.B. 1177) would have required smoke-free workplaces, restaurants and bars.** It would have protected us from the dangers of secondhand smoke.

State Senator Robert Flanders voted against the smoke-free bill.

He voted no even though the American Heart Association, the American Cancer Society, the American Lung Association, and 79% of New Hampshire voters support the smoke-free bill.

It's our turn to vote against him.

On Election Day, vote for a healthier New Hampshire—and against Robert Flanders.
